# ÉLÈVE

THE ART OF A TIMELESS BEAUTY

With its three lines, the fruit of passion and love for high quality cosmetics, **ÉLÈVE** has been, since 2013, one of the main players in the anti-aging market.

**ÉLÈVE** cosmetics, , in addition to the latest generation active ingredients at the highest concentrations, also contain carriers capable of conveying the active substances while maintaining their effectiveness intact and prolonging their activity for several hours.

Thus, the **lifting** effect, the **filler** effect, the **smoothing** effect are immediately visible and last a long time. The make-up, applied immediately after, resists much longer.

**And then, day after day,  
your skin lights up with a new light**
